

DATASHEET

Motivation.

1. **For what purpose was the dataset created?** (Was there a specific task in mind? Was there a specific gap that needed to be filled? Please provide a description.)

“the archive is a completely objective record of the defining moment of our time. We hope that its revelation will lead to a more nuanced understanding of the event and its tragic consequences”

2. **Who created the dataset (for example, which team, research group) and on behalf of which entity (for example, company, institution, organization)?**

The dataset contains intercepted pager messages in the 24 hours of the September 11 attacks (personal messages and some messages from officials)

3. **Who funded the creation of the dataset?** (If there is an associated grant, please provide the name of the grantor and the grant name and number.)

...

4. **Any other comments?**

...

Composition

1. **What do the instances that comprise the dataset represent (for example, documents, photos, people, countries)?** (Are there multiple types of instances (for example, movies, users, and ratings; people and interactions between them; nodes and edges)? Please provide a description.)

...

2. **How many instances are there in total (of each type, if appropriate)?**

...

3. **Does the dataset contain all possible instances or is it a sample (not necessarily random) of instances from a larger set?** If the dataset is a sample, then what is the larger set? Is the sample representative of the larger set (for example, geographic coverage)? If so, please describe how this representativeness was validated/verified. If it is not representative of the larger set, please describe why not (for example, to cover a more diverse range of instances, because instances were withheld or unavailable).
